

# GO! THERAPY

Using individualized and client centered speech and occupational therapy, we engage the individuals at their current level and gradually pull them out of their comfort zone. While supporting their sensory, emotional, and communication needs to promote increased success and engagement in meaningful, daily life.

## 1 Identify Challenges

You recognize that you, your child, or loved one is having difficulty with communication or daily tasks.

## 3 Request Referral from Physician

Request a referral for SLP or OT services be sent to GO! Therapy via fax.  
(507)-934-4072

## 5 Collaborate!

Help your therapist collaborate with all other care providers to ensure holistic care, by ensuring we have information to contact others involved in treatment.

## 2 Talk with Physician

Reach out to your primary care provider and express your concerns.

## 4 GO! Schedules Evaluation

Once we have received the referral from a primary care physician, our office manager will contact the families to schedule the initial evaluation.
